Experience

Seagate / Lead UX Designer — Jan 13 – current

- Drive design for consumer and business NAS products, contributing to improved Amazon star ratings.
- Design information architecture for NAS OS 4 to support 3rd-party applications, expanding available market.
- Reduce time to market by collaborating with product management, product development, and engineering teams.
- Improve customer satisfaction by translating challenges to feature enhancements.
- Manage European-based design contractors to meet project deadlines.

LaCie / UX Designer + Graphic Designer — June 10 – Dec 13

- Improved overall quality of website product marketing by creating a template and a localization process for product pages.
- Reduced translation costs by designing a new template for product quick-install guides.
- Drove faster turnarounds and higher quality packaging through redesigned standards.
- Mentored Jr. designers, improving their professional skills.

Ideawörks / Graphic Designer — June 06 – Jan 10

- Drove repeat business and client retention by producing annual reports, invitation packages, websites, and other projects.
- Updated agency collateral, including business cards, e-newsletter, proposals, and invoices, to bring cohesion to all customer touch-points.
- Awarded Pensacola ADDY® awards including a Judge's Award, and a District 1 ADDY®.
